

# TRUMPS TELEGRAPH

## COVID-19 UPDATE

Another wave of covid cases has hit Vietnam with HCMC and surrounding provinces in lockdown. Some factories have closed as they are unable to work with the prescribed covid protocols. This is putting extra demand on those factories still operating and prices have risen in the past month as a result. This is effecting our supply of raw and organic cashews, multiple ranges of pepper and whole black peppercorns.

If you have any questions, or if you are experiencing any challenges please contact our Trumps team on (07) 3274 7111 or at [orders@trumps.com.au](mailto:orders@trumps.com.au).

On a good note, footy finals are around the corner and we are so EXCITED! Hoping everyone can enjoy the footy with a beverage in one hand and some Trumps products in the other!

# MARKET UPDATE

**Macadamias**- Good Inshell and kernel sales to China and other major markets has seen offers slow. This is particularly early to be in this well sold position and we hope that most of our customers have already covered their Christmas needs.

**Brazilnuts** - There is no change to the very short supply of Brazilnuts. Prices continue to rise and offers are increasing hard to find. Considering there is no more raw material to be bought and many have not covered all their needs, we cannot see prices easing soon.

**Californain Walnuts** - We are expecting to see new crop prices at higher levels and the processor will push up the market with the reduced supply. New crop pricing should be available very soon, with new crop Chandlers not arriving till mid/late November (depending on shipping availability).

## MACADAMIA NUT DAY!

Friday 4 September is Macadamia Nut Day, a day to celebrate this rare and delicious Australian nut and the farmers who grow them.

"It's a proud day for our Australian macadamia growers," says Australian Macadamia Society (AMS) CEO Jolyon Burnett.

"Macadamias originated right here, on the east coast of Australia, and on Macadamia Nut Day they will be celebrated all over the world." says Mr. Burnett.

# ORGANIC MONTH

September is all about raising awareness of certified organic products, brands and businesses by educating consumers about why choosing certified organic is so important, and encouraging them to look for organic certification logos on their purchases.

Australian Organic Awareness Month (or AOAM for short) is Australia's largest campaign promoting the certified organic industry across all categories, including fresh produce, packaged food and beverages, cosmetics and skincare, home and garden products, textiles and even pet food!

"As consumers, you want food you can recognise and trust. Buying organic products supports food safety, health, good nutrition and the environment." Costa Georgiadis, Ambassador of National Organic Week.

## ORGANIC CONSUMER CHOICE AWARDS

MyOrganics has been nominated yet again for 'Favourite Organic Brand' in the Organic Consumer Choice Awards and we would love your support!
